### CANDY FRAGRANCE OIL

#### INFORMATION ON SUBSTANCE / MIXTURE

|                       |                                                                              |
|-----------------------|------------------------------------------------------------------------------|
| I.N.C.I.              | Parfum                                                                       |
| Manufacturing process | Mixture of aromatic products, natural origin, identical nature and synthesis |

#### TECHNICAL DATA

##### Physical parameters

|                           |                          |
|---------------------------|--------------------------|
| Appearance                | Liquid                   |
| Color                     | Colorless to pale yellow |
| Odor                      | Sweet                    |
| Relative density (d20/20) | [1.0110 ; 1.0510]        |
| Refractive index at 20°C  | [1.5020 ; 1.5420]        |
| Flash point               | 59.4°C                   |
| Water solubility          | No                       |
| Ethanol solubility        | Yes                      |

#### TRANSPORT, STORAGE and SHELF LIFE

|                    |                                                                                                                  |
|--------------------|------------------------------------------------------------------------------------------------------------------|
| Storage conditions | It's recommended to store the product in its closed original packing, shielded from the light and from the heat. |
| Shelf Life         | 36 months under good storage conditions                                                                          |

#### LEGISLATION

|                |                                                                                                                                                                                              |
|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Certification  | -                                                                                                                                                                                            |
| CMR substances | This product is free from substances classified as carcinogenic, mutagenic or toxic for reproduction (CMR) of category 1A, 1B or 2 under Part 3 of Annex VI to Regulation (EC) No 1272/2008. |
| Nanomaterials  | This product is not considered as a nanomaterial, and doesn't contain nanoparticles as defined by the European commission and as described in EU n°1223/2009 and 2012-232 (ANSES).           |
| Animal testing | This product has not been tested on animals.                                                                                                                                                 |
| EINECS         | -                                                                                                                                                                                            |
| CAS            | -                                                                                                                                                                                            |
